

Experimental practical co-production action:

Objective

Promotion of an **innovative collaborative circular economy system for waste separation, reuse, & marketing** involving the community, local organisations, & Beitillu village council, including the development of a digital system to facilitate waste management and quantification into incentives or rewards at the village council to encourage participation and sustainability.

-  **1** compactor truck for the collection & transfer of organic waste; **200** waste bins. **10** new jobs; **100** individuals trained. **2** awareness campaigns (1 community, 1 national).
- + Implementation of a Digital Collection System. + Improvement in financial performance of Beitillu Village Council + improving its capacity for partnerships with the private sector. + Revenue Stream for Agricultural Cooperative.

-  **650** participants (over **100** households), including **95** women, **140** youth & **265** children
- 12500** beneficiaries (**4500** in Beitillu & around **8000** in the surrounding communities of Deir Ammar, Jammala, & Deir Ammar refugee camp).

MedTOWN project **Co-producing social policies with Social Solidarity Economy actors to fight poverty, inequality and social exclusion** is a cooperation project involving 9 partner organizations, led by Spanish NGO Assembly for cooperation for Peace & funded by the European Union under the ENI CBC Med Programme, from Sept 2019 to Nov 2023. Total budget **€3,4** million, **86,5%** EU contribution.

MedTOWN developed six demonstrative actions, one per Mediterranean country involved (Portugal, Jordan, Spain, Palestine, Greece & Tunisia) to test different co-production initiatives on Social & Solidarity Economy (SSE). Social innovation experiments to improve the lives of people & local communities.

Co-production, a model for fair and sustainable societies
